

**Naeem Shah –
Year 1**

Trainer Comments

“Naeem is a great communicator and works well with others. His interest in AI shines through and eagerness to develop over the coming weeks is great.”

Naeem is part of Bevan, one of our previous cohorts. He has been onsite at UKPN for the last 6 months as a Junior Decision Scientist. Due to budgets, he is now looking for redeployment.

- [Portfolio](#)

Profile Summary

- Naeem is a technically capable Junior Decision Scientist currently working at UK Power Networks, where he has contributed to a range of impactful data solutions.
- His recent work includes consolidating fragmented SHE (Safety, Health, Environment) data into a unified, automated dashboard using Databricks, improving data quality and supporting more confident performance reviews.
- He also developed a modular Plotly Dash web application to streamline asset replacement planning - reducing manual processes and improving consistency in WBS code assignment.
- With additional self-led training in DAX and Power BI, Naeem has delivered insights into customer satisfaction during storms, linking operational metrics with BMOCS outcomes to inform resourcing strategy.
- Naeem is now keen to transition into another junior role where he can continue working with data while also applying his strengths in organisation, planning, and structured problem-solving.
- He brings a collaborative mindset, a strong stakeholder focus, and a personal commitment to continuous learning and team knowledge sharing.

Achievements

- Degree in Computer Science from QMUL and Masters in Cyber Security.
- Demonstrated leadership in group Web Programming module assignments on BSc @QMUL
- Exposure to multiple frameworks (Ruby-on-rails, Python, Java) through university projects that developed my transferability in tech skillset
- Highly sought after GCSE Private Maths Tutor for over 7 years
